DETAILED ACTION

1. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, it is unclear whether “a carrier transfer path”, line 7, and “a plurality of converters”, line 8, are elements of the “high speed adder”.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hossain et al. (6,134,576).

Hossain et al. discloses in figure 6 a high speed adder (200) in which provisional carriers composed of a pair of signals (p,g) that indicate a case where carry is produced from a low order bit and a case where no carry is produced therefrom are generated in advance and an actual carrier (gout, cout) is selected from the provisional carriers in accordance with selection information from the low order bit, a carrier transfer path (signal lines), and a plurality of converters (216) each of which converts the provisional carriers into provisional sums composed of a pair of signals that indicate the case where the carry is produced from the low order bit and

Art Unit: 2193

the case where no carry is produced therefrom, the converters being provided on a predetermined portion of the carrier transfer path as claimed.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D. Ngo whose telephone number is (571) 272-3731. The examiner can normally be reached on Tuesday-Friday.
